

Heart Vascular Screenings

Heart and vascular disease is the leading cause of death, and a major cause of disability, for Americans—and is the single most expensive medical condition for businesses, projected to cost over \$503 billion in direct medical expenses and lost productivity in this year alone.

Our tests are completely pain-free, require no needles or blood to be drawn and no clothes to be removed. In as little as 20 minutes, our Board-Certified Heart and Vascular Specialists will test six primary areas to identify possible or potential areas of concern. Confidential individual results will be made available to each participating employee.

Our Advanced Ultrasound Screening Includes:

- CIMT Measurement**
- Carotid Artery Screening**
- Peripheral Vascular Screening**
- Echocardiogram**
- Liver Scan**
- Abdominal Aortic Aneurysm Scan**

Heart & Vascular Screening \$: **135.00**
cash, check, debit/credit, HSA or FSA card accepted

Cancer Screening \$: **135.00**
cash, check, debit/credit, HSA or FSA card accepted

Combo \$: **225.00**
cash, check, debit/credit, HSA or FSA card accepted

Cancer Screenings

Cancer is the second leading cause of death behind Heart and Vascular Disease—and is projected to cost over \$89.1 billion, with a large number of people diagnosed at late stages, when treatment can be more extensive, costlier and less successful.

Our tests are completely pain-free, require no needles or blood to be drawn and no clothes to be removed. In as little as 20 minutes, our Board-Certified Sonographers will test seven primary areas to identify possible or potential areas of concern. Confidential individual results will be made available to each participating employee.

Our Advanced Ultrasound Cancer Screening Includes:

- Thyroid Scan**
- Pancreas Scan**
- Gallbladder Scan**
- Kidney Scan**
- Abdominal Aortic Aneurysm Screening**
- Liver Scan**
- Spleen Evaluation**

Healthcare facilities may charge up to \$13,000 for all of the scans administered in CardiOptics combined screenings. We can do it for a fraction of the cost and in as little as 20 minutes.

Pain Free — Needle Free!
